Elexia, avvocati & commercialisti

In 2015 a group of well-established professionals in the **legal and tax field**, sharing similar views and common objectives established a new kind of professional organization, **Elexia, avvocati & commercialisti**. The new organization because of its **slender format** and **streamlined governance** is now able to provide its clients with fast and effective solutions, flexible and customized services, according to each one's specific needs.

Elexia, avvocati & commercialisti incorporates **14 partners** whose skills often integrate and complement each other.

We provide our clients with effective and comprehensive counseling and support them throughout all aspects of business development and issue management.

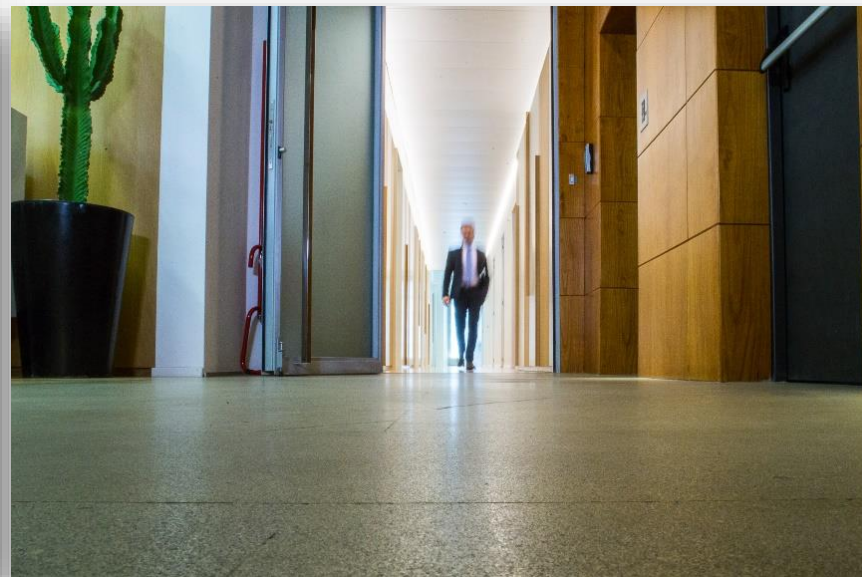

Elexia today

Elexia today includes **over 40 professionals** in the legal and accounting field supported by a qualified staff. Our offices are located in **Milan, Florence** and **Rome** and can offer assistance in business law, tax and legal advice and provide counseling in all areas of civil, administrative, commercial and corporate law (real estate and employment, debt restructuring, bankruptcy procedures and new technologies as well as in matters of tax and regulatory issues for the management of all needs arising from ordinary and extraordinary business activities).

A mix of highly-skilled professionals

As partners we have synergistically pooled our know-how and resources to provide our clients with the best possible solutions for addressing their specific needs. We provide customer satisfaction by working in compliance with the values we share: **teamwork, innovation, the pursuit of excellence and the enhancement of diversity**. In addition, we are thoroughly committed to the **highest level of ethical standards**.

The business areas of Elexia

Because of our heterogeneous mix of know-how and expertise, we are able to offer our clients an overall perspective and help identify the best solution for each of their needs; we offer an integrated service and multidisciplinary skills in many diverse areas:
